

## Eco-Code

**To make Trinity St Mary's C of E VA Primary School more environmentally friendly by:**

Collecting rubbish (caring for school grounds)

To use less energy and not waste energy by turning off the taps, lights, smartboards and computers

Spreading a message of how to be eco-friendly at school, at home, in our community and everywhere

To recycle more eg plastics, soft plastic, cans, glass, food

Remind the school community to recycle and label recycling bins so people know where to put waste

If you can't recycle it make it into a model of some sort

To reduce water waste

To bring reusable bottles into school

Create animal homes for wild animals and feed them
